Smoother skin, fewer fine lines

Botox reduces dynamic wrinkles and fine lines, offering a quick, non-surgical way to achieve a smoother, more refreshed facial appearance. At Sculpt Aesthetics in Madhapur, Hyderabad, Botox is performed by experienced plastic surgeons **Dr. Jagadish Kiran** and **Dr. Suma Sandhyala**, using modern techniques and a patient-first approach — so you always know what to expect, step by step.

Understanding Botox

Botox is a purified injectable that temporarily relaxes targeted facial muscles, softening the fine lines and wrinkles that form with repeated

facial expressions, such as around the forehead and eyes.

Many people considering Botox have questions or feel a little unsure about where to start — that's completely normal. Our team takes time during your first visit to explain things in plain language, so you can make a confident, informed decision at your own pace.

Signs You May Be a Good Candidate

You might be a good fit for this treatment if any of the following sound familiar:

- Individuals with visible dynamic wrinkles (forehead lines, crow's feet)
- Patients seeking a quick, non-surgical preventive or corrective treatment

The best way to know for sure is a one-on-one consultation, where your surgeon reviews your health history and goals in detail.

How Botox Works: Step by Step

Step 1: Consultation & Skin/Health Assessment

Your provider reviews your goals and checks whether Botox suits your skin, hair, or health profile.

Step 2: Customized Plan

A treatment plan and, where relevant, a session schedule is created to match your specific needs.

Step 3: The Treatment

Botox is performed in a comfortable clinical setting, usually taking well under an hour.

Step 4: Aftercare & Follow-Up

You'll receive simple aftercare tips, and your provider will track your progress over follow-up visits or sessions.

Our Approach

Following an assessment of facial muscle movement, targeted micro-injections are placed to relax specific muscles, softening lines while preserving natural facial expression.

Benefits

Here's what patients typically gain from Botox:

✓ Visibly smoother skin ✓ Reduced fine lines and wrinkles ✓ Quick treatment with no downtime

Recovery Timeline

Recovery looks a little different for everyone, but here's a general idea of what to expect:

No significant downtime; results typically appear within 3–7 days and last several months.

Your surgeon will give you a personalized recovery plan, along with clear guidance on activity levels, medication, and follow-up visits, so healing stays on track.

Pricing

The cost of Botox depends on factors like the technique used, extent of treatment, and your individual assessment — so we don't quote a fixed price online. **Contact us at 9639635454 / 9133733733 for personalized, tentative pricing** after a consultation. *(Editor note: replace this placeholder with confirmed price ranges once finalized.)*

Safety & Things to Consider

This is a non-surgical treatment with minimal downtime and a good safety profile when performed by trained professionals using approved products. As with any injectable or energy-based treatment, mild, temporary side effects such as redness or swelling are possible and will be discussed during your consultation.

Frequently Asked Questions

How many sessions will I need? This varies by individual and goal — your provider will recommend a session plan during your consultation.

How long do the results last? Results vary depending on the treatment and individual factors like skin type and lifestyle; your provider can give you a realistic timeline.

Does Botox look unnatural or 'frozen'? When dosed correctly by an experienced injector, Botox softens lines while preserving natural facial movement and expression.

Can Botox be combined with fillers? Yes, Botox and dermal fillers are often used together to address both wrinkles and volume loss for a more complete result.
