Personalized, confidential aesthetic care

Clitoral hood correction improves excess tissue around the clitoral hood for patients with aesthetic or comfort-related concerns.

At Sculpt Aesthetics in Madhapur, Hyderabad, Clitoral Hood Correction is performed by experienced plastic surgeons **Dr. Jagadish Kiran** and **Dr. Suma Sandhyala**, using modern techniques and a patient-first approach — so you always know what to expect, step by step.

Understanding Clitoral Hood Correction

This procedure reshapes or reduces excess tissue of the clitoral hood, often performed alongside labiaplasty, to improve comfort and appearance.

Many people considering Clitoral Hood Correction have questions or feel a little unsure about where to start — that's completely normal. Our team takes time during your first visit to explain things in plain language, so you can make a confident, informed decision at your own pace.

Signs You May Be a Good Candidate

You might be a good fit for this treatment if any of the following sound familiar:

- Women with excess or asymmetrical clitoral hood tissue
- Patients seeking this alongside labiaplasty for balanced results

The best way to know for sure is a one-on-one consultation, where your surgeon reviews your health history and goals in detail.

How Clitoral Hood Correction Works: Step by Step

Step 1: Consultation & Evaluation

You'll meet with your surgeon to discuss your goals, medical history, and concerns. This is the time to ask questions and understand whether Clitoral Hood Correction is right for you.

Step 2: Personalized Planning

Your surgeon examines your body structure and designs a plan for Clitoral Hood Correction that fits your anatomy, so results look natural and balanced.

Step 3: The Procedure

Clitoral Hood Correction is performed in a modern, sterile operation theatre under appropriate anesthesia, following strict safety protocols throughout.

Step 4: Recovery & Follow-Up

You're monitored closely after the procedure, with clear aftercare instructions and scheduled follow-up visits to track healing and results.

Our Approach

Following a confidential consultation, the procedure is planned to address excess tissue while preserving natural sensation and function.

Benefits

Here's what patients typically gain from Clitoral Hood Correction:

- ✓ Improved comfort and appearance
- ✓ Often combined with labiaplasty for balanced results
- ✓ Discreet, individualized care

Additional Details You Should Know

What the Procedure Involves

The surgeon removes or reshapes excess skin folds around the clitoral hood using fine, precise techniques designed to preserve normal sensation and function while improving

comfort and appearance.

Pricing

The cost of Clitoral Hood Correction depends on factors like the technique used, extent of treatment, and your individual assessment — so we don't quote a fixed price online. **Contact us at 9639635454 / 9133733733 for personalized, tentative pricing** after a consultation.

(Editor note: replace this placeholder with confirmed price ranges once finalized.)

Scars & Marks

Incisions are placed within natural skin folds and are typically very difficult to notice once healed.

Safety & Things to Consider

Like any surgical procedure, this treatment carries general surgical risks, which your surgeon will explain in detail during consultation. At Sculpt Aesthetics, we follow international safety standards, strict infection-control protocols, and modern operation theatre facilities to keep every procedure as safe as possible. A thorough medical evaluation before surgery helps make sure the procedure is right for you.

Frequently Asked Questions

Is the procedure painful?

Most patients feel minimal discomfort during Clitoral Hood Correction itself, since it is performed under anesthesia. Some soreness in the days after is normal and manageable with prescribed medication.

How long does the surgery take?

This depends on the extent of the procedure and will be explained clearly during your consultation, once your specific plan is finalized.

When will I see the final results?

You'll notice initial changes as swelling reduces over the first few weeks, with final results becoming clearer over the following months.

Will this affect sensitivity?

The technique is chosen specifically to preserve nerve function and natural sensitivity; this is discussed in detail during your private consultation.

Is this often combined with labiaplasty?

Yes, many patients choose to combine clitoral hood correction with labiaplasty for a more balanced, complete result in a single procedure.
