A more defined jawline and facial profile

Double chin treatment addresses excess fat and skin laxity beneath the chin to create a more defined jawline and improved facial profile.

At Sculpt Aesthetics in Madhapur, Hyderabad, Double Chin Treatment is performed by experienced plastic surgeons **Dr. Jagadish Kiran** and **Dr. Suma Sandhyala**, using modern techniques and a patient-first approach — so you always know what to expect, step by step.

Understanding Double Chin Treatment

A double chin refers to excess fat and/or loose skin under the chin, which can occur due to genetics, weight, or ageing. Several treatment options exist depending on the underlying cause.

Many people considering Double Chin Treatment have questions or feel a little unsure about where to start — that's completely normal. Our team takes time during your first visit to explain things in plain language, so you can make a confident, informed decision at your own pace.

Signs You May Be a Good Candidate

You might be a good fit for this treatment if any of the following sound familiar:

- Individuals with fat accumulation under the chin
- Patients with mild to moderate skin laxity in the area

- Those seeking a more defined jawline and profile

The best way to know for sure is a one-on-one consultation, where your surgeon reviews your health history and goals in detail.

How Double Chin Treatment Works: Step by Step

Step 1: Consultation & Evaluation

You'll meet with your surgeon to discuss your goals, medical history, and concerns. This is the time to ask questions and understand whether Double Chin Treatment is right for you.

Step 2: Personalized Planning

Your surgeon examines your body structure and designs a plan for Double Chin Treatment that fits your anatomy, so results look natural and balanced.

Step 3: The Procedure

Double Chin Treatment is performed in a modern, sterile operation theatre under appropriate anesthesia, following strict safety protocols throughout.

Step 4: Recovery & Follow-Up

You're monitored closely after the procedure, with clear aftercare instructions and scheduled follow-up visits to track healing and results.

Our Approach

Treatment options include liposuction to remove excess fat, skin tightening procedures for looser skin, or non-surgical treatments — selected based on the degree of fat and skin laxity present.

Benefits

Here's what patients typically gain from Double Chin Treatment:

- ✓ Defined jawline
- ✓ Improved facial profile
- ✓ Options ranging from non-surgical to surgical

Recovery Timeline

Recovery looks a little different for everyone, but here's a general idea of what to expect:

Recovery depends on the technique used; liposuction-based approaches typically involve a few days of swelling.

Your surgeon will give you a personalized recovery plan, along with clear guidance on activity levels, medication, and follow-up visits, so healing stays on track.

Pricing

The cost of Double Chin Treatment depends on factors like the technique used, extent of treatment, and your individual assessment — so we don't quote a fixed price online. **Contact us at 9639635454 / 9133733733 for personalized, tentative pricing** after a consultation.

(Editor note: replace this placeholder with confirmed price ranges once finalized.)

Scars & Marks

When liposuction is used, entry points are tiny and placed in inconspicuous spots under the chin, healing to be nearly invisible.

Safety & Things to Consider

Like any surgical procedure, this treatment carries general surgical risks, which your surgeon will explain in detail during consultation. At Sculpt Aesthetics, we follow international safety standards, strict infection-control protocols, and modern operation theatre facilities to keep every procedure as safe as possible. A thorough medical evaluation before surgery helps make sure the procedure is right for you.

Frequently Asked Questions

Is the procedure painful?

Most patients feel minimal discomfort during Double Chin Treatment itself, since it is performed under anesthesia. Some soreness in the days after is normal and manageable with prescribed medication.

How long does the surgery take?

This depends on the extent of the procedure and will be explained clearly during your consultation, once your specific plan is finalized.

When will I see the final results?

You'll notice initial changes as swelling reduces over the first few weeks, with final results

becoming clearer over the following months.

Can double chin treatment be combined with a facelift or jawline procedure?

Yes, many patients combine chin liposuction or skin tightening with jawline contouring or a facelift for a more complete lower-face result.

Are non-surgical options as effective as liposuction?

Non-surgical treatments work well for mild fullness, while liposuction typically gives a more definitive result for more significant fat deposits — your surgeon will recommend based on your case.
