Medically supervised support for sustainable weight loss

For eligible patients, medically supervised weight-loss injectables can support sustainable weight loss as part of a structured, doctor-monitored program. At Sculpt Aesthetics in Madhapur, Hyderabad, Weight Loss Injectables (Mounjaro & Ozempic) is performed by experienced plastic surgeons **Dr. Jagadish Kiran** and **Dr. Suma Sandhyala**, using modern techniques and a patient-first approach — so you always know what to expect, step by step.

Understanding Weight Loss Injectables (Mounjaro & Ozempic)

These are prescription injectable medications (from the GLP-1 receptor agonist class, which includes well-known brands) that work by helping regulate appetite and blood sugar, supporting gradual, sustained weight loss when combined with lifestyle changes and medical supervision.

Many people considering Weight Loss Injectables (Mounjaro & Ozempic) have questions or feel a little unsure about where to start — that's completely normal. Our team takes time during your first visit to explain things in plain language, so you can make a confident, informed decision at your own pace.

Signs You May Be a Good Candidate

You might be a good fit for this treatment if any of the following sound familiar:

- Adults with a BMI indicating overweight or obesity who have struggled with lifestyle changes alone
- Patients without medical contraindications to this medication class
- Those seeking a structured, medically monitored weight-loss approach

The best way to know for sure is a one-on-one consultation, where your surgeon reviews your health history and goals in detail.

How Weight Loss Injectables (Mounjaro & Ozempic) Works: Step by Step

Step 1: Consultation & Assessment

Your doctor reviews your health history, goals, and suitability for Weight Loss Injectables (Mounjaro & Ozempic).

Step 2: Personalized Plan

A plan and, where relevant, a session or monitoring schedule is created to match your specific needs and safety profile.

Step 3: The Treatment

Weight Loss Injectables (Mounjaro & Ozempic) is carried out under professional supervision in a comfortable clinical setting.

Step 4: Ongoing Monitoring

Your progress is tracked over follow-ups, with your plan adjusted as needed.

Our Approach

Eligibility is determined through a detailed medical evaluation, including BMI, health history, and relevant tests. If suitable, your doctor prescribes and supervises the program, with regular follow-ups to monitor progress, safety, and side effects — dosing and administration are managed entirely by your treating doctor.

Benefits

Here's what patients typically gain from Weight Loss Injectables (Mounjaro & Ozempic):

✓ Medically supervised, personalized approach ✓ Can support significant, sustained weight loss when combined with lifestyle changes ✓ Regular monitoring for safety

Recovery Timeline

Recovery looks a little different for everyone, but here's a general idea of what to expect:

This is a non-surgical, ongoing medical program rather than a one-time procedure; your doctor will explain what to expect at each stage.

Your surgeon will give you a personalized recovery plan, along with clear guidance on activity levels, medication, and follow-up visits, so healing stays on track.

Pricing

The cost of Weight Loss Injectables (Mounjaro & Ozempic) depends on factors like the technique used, extent of treatment, and your individual assessment — so we don't quote a fixed price online. **Contact us at 9639635454 / 9133733733 for personalized, tentative pricing** after a consultation. *(Editor note: replace this placeholder with confirmed price ranges once finalized.)*

Safety & Things to Consider

This treatment is offered only after a thorough medical evaluation to confirm it's appropriate for you, and is monitored throughout by qualified medical professionals. As with any medical or body-contouring technology, your provider will walk you through possible side effects and who should avoid this treatment.

Frequently Asked Questions

Are these medications safe? When prescribed and monitored by a qualified doctor for an appropriate candidate, these medications have a well-established safety and research profile; your doctor will discuss risks and benefits specific to you.

How much weight can I expect to lose? Results vary by individual; your doctor will set realistic expectations based on your health profile and adherence to the full program, including diet and lifestyle changes.

Is this treatment right for everyone? Suitability depends on individual health and goals; a proper consultation and assessment is needed before starting.

How long before I see results? This depends on the treatment and individual factors; your provider will give you a realistic timeline during consultation.

Do I need to change my diet while on this program? Yes, these medications work best alongside guided nutrition and lifestyle changes, which your care team will support you with.
